**VisoID** – **Facial recognition Time & Attendance taking**

About this app

Available on both IOS and Android OS.

This app converts your smart phone into facial recognition terminal to take time & attendance for mobile workforce and more.

Features

- **Time & Attendance**
- **GPS location and geo-fencing**
- **Reports aplenty**
- **Integration to third party HRMS/ payroll software**
- **Shift scheduling and leave management (see note *)**
- **Real time data capture**

Note: This app works hand in glove with our AutostarServer aka black box.
